# Verifone Engage V400c Plus

Engineered for experience

Model shown: Verifone Engage V400c Plus

# The right device to meet all your business needs

## Verifone Engage V400c Plus

The V400c Plus is our most powerful and advanced countertop device. As part of Verifone's 'Engage' portfolio, it combines the latest in features, functionality, and performance into an efficient, high-end solution.

- Display: 3.5" colour touchscreen, smudge-resistant coating
- Operating System: V/OS (Linux based)
- Processor: 600MHz Cortex A9
- Connectivity: Ethernet
- Security: PCI PTS 5.X approved, P2PE approved
- 384 MB (256 MB Flash, 128 MB SDRAM)
- Supports commerce apps
- Faster printing
- 190mm(L) × 80mm(W) × 70mm(H)

## Payments turned up a notch

The V400c Plus is Verifone's most powerful and advanced countertop device. Its advanced feature set includes colour screen, fast processor, touchscreen, and provides small to mid-sized merchants with an upmarket, reliable payment solution.

## What's hot?

Consumers are accustomed to touchscreens, and the V400c Plus offers a familiar, engaging experience, with its 3.5" smudge resistant colour screen.

## Reliable and secure

The V400c Plus also joins Verifone's industry-leading selection of devices that meet PCI 5.X requirements. With end-to-end encryption and tokenization, merchants can worry about something other than device security.
